

Lilaas Conflict Minerals Policy Statement

As a social responsible company Lilaas AS is opposed to human rights abuses. We seek to source materials and components from suppliers that share our values regarding human rights. Following regulation (EU) 2017/821 of the European Parliament and of the Council of 17 May 2017 regarding conflict minerals, our suppliers are informed and are expected to supply materials and components that are conflict free.

Lilaas is committed to:

- Not buy materials and components containing conflict minerals.
- Require that our suppliers to work towards ensuring conflict free minerals sourcing and to provide their conflict free sourcing status in the conflict minerals reporting template provided by the Responsible Minerals Initiative.

To the best of our knowledge, Lilaas products do not contain conflict minerals.

If we discover the use of conflict minerals in parts or components we procure for use in our products, we will immediately start a process to re-source the affected parts or components.
